**Sub:-** Establishment of water dispensing units in Municipal Corporation of Rajasthan to provide safe and hygienic drinking water to public in Rajasthan totally free of cost.

**Ref:-** Your letter no. 08 dt. 19.02.2019.

While going through above referred proposal for establishment of water dispensing units in Municipal Corporation of Rajasthan to provide safe and hygienic drinking water to public in Rajasthan totally free of cost, following observations have been made:

- Nothing has been mentioned about amount of solid waste and liquid waste to be generated per year and in its life cycle of the plants and their disposal mechanism or protocol.
- You have not mentioned the operational and cleaning protocols of membranes used in the plant.
- Units should be installed only after checking of raw inlet water and where the water quality does not meet the drinking water standard. These plants should not be installed in the areas where surface water is available for drinking.

Therefore, you are requested to clarify above points.

(Pawan Arora)

Director cum Joint Secretary
