## Office Order

It has been observed that despite directions for closure of the brick kilns by the State Board, these continue to operate and Regional Officers are simply writing letters to SDM/ME for compliance of the closure direction. Therefore to ensure compliance of the closure directions of brick kilns Regional Officers are directed to act in accordance with the provisions of Water (Prevention and Control of Pollution) Act, 1974 and Air (Prevention and Control of Pollution) Act, 1981, to seize & seal the plant and machinery and ensure that these brick kilns do not operate. The Regional Officers shall take all legal steps to ensure the closure including seeking help from other department of government.

This bears approval of the competent authority.
