No. F12(Adm-5)Project/RSPCB/ 1550-1558

Date: 17/10/25

Office Order

Deficiencies/non-compliances observed during inspection/sampling/monitoring are required to be communicated to the project proponents on timely basis so that requisite corrective measures are taken immediately.

State Board has issued directions from time to time to communicate such deficiencies/non-compliances through on the spot site memo and timely letter/notices etc.

However, in a few cases it has been observed that the deficiencies/non-compliances observed during inspection/sampling/monitoring are not being communicated to the project proponents timely. In absence of which rectification of these deficiencies /non-compliances is getting delayed, thereby resulting increase in duration of non-compliance for computation of environmental compensation. It is pertinent to mention that delay in communicating deficiencies can create situations of manipulating the observations which needs to be watched for and prevented.

In view of the above, it is hereby directed that:-

1. Deficiencies/Non-compliances observed during inspection shall be communicated to the project proponent on the spot through site memo.
2. In case, if no response against the site memo is received within three days from the unit, a show cause notice shall be issued within three working days. Show Cause Notice shall also be shared on unit's e-mail id.
3. Non-compliances of prescribed Air and/or Water norms established through analysis of Air/Water samples shall be communicated within maximum ten (10) days of sample collection.
4. Response/reply received from the unit shall be verified within fifteen (15) days to assess whether corrective measures have been taken.
5. Results of sampling to be communicated as soon as results are obtained.

This order shall come into force with immediate effect.

This bears approval of the competent authority.

(Sharda Pratap Singh)

Member Secretary
