No. F.5 (Gen-67)RPCB/Textile/

Date:-

Order

The State Board has issued Office Order No. F.(5)/Gen-67/RSPCB/Textile/3671-3727 dated 15.03.2022 regarding compliance and monitoring in the textile clusters and a uniform mechanism was devised. However, it is still noted that some units are not operating MEE/MVR regularly, and there is a possibility of discharges of R.O. reject into the CETP pipeline, RIICO drain, river, or land.

To ensure the proper operation of MEE/MVR, all units shall:

- Install a separate energy meter to monitor the operation of MEE/MVR.
- Maintain a logbook in the prescribed format, recording the generation and disposal of salt.

Regional Officers are directed to monitor all textile units having their own ETP at least once a month to oversee the operation of MEE/MVR, the disposal of R.O. reject, and also check the characteristics of MEE/MVR salt.

This order is to be implemented with immediate effect.

(Sharda Pratap Singh)
Member Secretary
