Dated: 6.02.2014

Sub: Construction Management System: Circular – 79

Ref: Guidelines regarding road marking and use of cat eyes on the road sub-projects in various RUSDIP towns.

It has been observed during inspection of road sub- projects sites in project towns of RUSDIP that there is lake of awareness regarding execution of the work of road marking with thermoplastic paint and quality of cat's eyes on road. Following should be particularly adhered during the execution of work-

1. It needs to ensure at IPIU level to check whether the work executed at site is as per specifications mentioned in the BOQ regarding the thickness of paint, quantity of reflectorising glass beads and other composition of paint etc. as per IRC-35 and clause 803 of MoRTH specifications. It is required due to this item is available in different languages in different PWD BSR of various regions of PWD circles (Road) & National Highway particularly not mentioning the thickness of paint and separate rates with/ without glass beads.
2. XEn, IPIU will ensure the quality monitoring particularly of road marking thermoplastic paint and cat eyes with their applications critically as per relevant MoRTH specifications.
3. Site visits of the best practices adopted else where may also be conducted by the concerned to establish the quality work of **road marking and use of cat eyes** in execution of the road sub- projects in various RUSDIP towns.

Project Director,
RUIDP, Jaipur
