6th February, 2019

दिनांक 08 - feb - 19

Dear Sir,

This is in reference with the DO letter from Secretary, Ministry of Housing and Urban Affairs (MoHUA)'s dated 09th January, 2019 (copy enclosed) regarding Global Housing Technology Challenge-India (GHTC- India). GHTC-India intends to source technologies from all over the world and identify such technologies which would be suitable for adoption in India, given its unique geo-climatic conditions and user preferences based on diverse cultures. The shift in technology transition will also address the large-scale housing construction in minimum time and cost with optimum use of resources and environment friendly practices.

2. The challenge has three components viz. i) Conduct of Grand Expo-cum-Conference, ii) Identifying Proven Demonstrable Technologies from across the world and iii) Promoting Potential Technologies through the establishment of Affordable Sustainable Housing Accelerators- India (ASHA-India) for incubation support.

3. MoHUA has launched "GHTC-India" on 14th January, 2019. Further, the Grand Expo-cum-Conference on GHTC-India is being organized at Vigyan Bhawan, New Delhi during 02-03 March, 2019. Hon'ble Prime Minister has consented to inaugurate the Expo and address the gathering. The program of the Expo-cum-Conference is attached herewith for your ready reference.

4. In view of the above, we are looking forward to State/ UT Government's cooperation and active participation in this unique Challenge. Your active role is also desired in the Light house projects which will be used as live laboratories for the technology selected through transparent process. The dates for entries for the entries by the States/UTs for this projects is 18th February 2019. You may suitably instruct the concerned accordingly. Your support in this program, is crucial for transition of best construction technologies available across the globe to our country.

With best regards,

Yours Sincerely,

PS/JS-II

(Amrit Abhijat)

Shri D.B. Gupta
