Note—Allowances should be made in probable savings where necessary, for variations due to incremental scale.

(iii) The estimates for fluctuating items of expenditure such as "Allowances and Honoraria" should be based on the current year's

allotment viewed in the light of the average of past three years actual allowance being made for any causes likely to modify that figure.

(iv) In cases where a post or a special allowance has been sanctioned for a year and the charge for the past month falls due in the budget year it must be taken against the grant of the budget year and provision made accordingly.
